

# Peter & Kelly on The Way

Prayerletter May 2008

Dear prayer partner,

We had a great send-off both in the Netherlands and in Vancouver, and we were very encouraged by all the people that came to say goodbye to us. We did manage to do almost all the things we had hoped we could do in terms of leaving for Asia, and God graced us with timely visas and travel mercies. The only thing unexpected was, that we missed our connecting flight in Hong Kong. The upside was, that we got to see a bit more of the city because we spend the night at a YMCA. And then on our last leg towards Singapore, we met another Candidate (also from Canada) on her way to the Orientation Course!

It is a blessing to be here and meet many likeminded people, some with decades of experience and with a tremendous anointing for their work. The lectures, interviews, house visits and general times of fellowship are really rich, and it is great to see some of the OMF work ethic displayed in daily life. Every working day, the whole International Head Quarters is gathering to start the day praying for all the work in a systematic fashion.

It is surely a time of transition, and the hard work we had to put in to make everything work is starting to take its toll on us physically and emotionally. We are also realizing that the months ahead of us with its single focus of language learning is found to be taxing by most people. But it is also exciting and settling at the same time to think that in June we will be in our new home!

We greatly value your support, and trust that the Lord is keeping you.

Love and blessings,

*Peter & Kelly + Lukas*

## **Praise with us:**

For having been able to work really hard the last few months to get everything ready and in order.

For the great blessing it is to be here in Singapore, with a great family of brothers & sisters.

## **Pray with us:**

For Peter who will be having intestinal endoscopy this week; for insight and healing.

For provision of a time of rest for us that we really need and are being recommended to take soon.

For adapting well to our future living situation in Thailand, settling into a healthy routine, and getting a good start in language learning.

For the people in Thailand, that they will develop a greater thirst after righteousness, truth and love and their Source.
